Education

Bilkent University

Ankara, Türkiye

Bachelor of Science in Information Systems and Technologies

2019 – 2025

Relevant Coursework: Object-Oriented Programming, Data Structures and Algorithms, Computer Networks (Cisco CCNA), Web Technologies, Database Management Systems, Operating Systems, Software Engineering, Mobile Application Development, Network Security

Experience

LILT AI

California, USA (Remote)

AI Evaluation Engineer (Multilingual LLM Benchmarking)

Apr 2026 – Present

- Architecting high-fidelity evaluation frameworks for autonomous coding agents within the **Terminal-Bench-2** ecosystem.
- Designing adversarial programming tasks in Turkish and English to expose LLM failure points in Unicode normalization, locale-specific logic, and internationalization (i18n).
- Orchestrating deterministic execution environments using **Harbor**, developing Oracle reference solutions, custom datasets, and automated verifier scripts.
- Calibrating task difficulty from 'Easy' to 'Very Hard' by analyzing model performance via pass@k metrics using Opus 4.6.
- Implementing complex engineering tasks involving script-specific edge cases, text transformation, and system-level configurations using Python and shell scripting.

Huawei

Ankara, Türkiye (Remote)

Full Stack Developer Intern

Feb 2024 – May 2024

- Built a scalable full-stack e-commerce platform using React.js, Nest.js, and MongoDB.
- Implemented secure authentication and authorization flows with JWT.
- Developed advanced product filtering and management features to enhance UX.
- Integrated Stripe payment gateway for secure and seamless transactions.
- Designed purchasing workflows adhering to Clean Architecture principles.
- Wrote comprehensive end-to-end (E2E) tests with Cypress to ensure system stability.

Huawei

İzmir, Türkiye

Full Stack Developer Intern

Aug 2023

- Developed a cross-platform note-taking mobile application using React Native.
- Engineered RESTful APIs with Node.js to manage real-time data flow.
- Integrated **Huawei Account Kit** to provide secure OAuth-based login.
- Designed a responsive UI optimized for various screen sizes using mobile-first approach.
- Managed NoSQL database schemas with MongoDB for efficient note storage.

Skills

Programming Languages: TypeScript, JavaScript, SQL, Python, Shell Scripting, HTML, CSS

Frameworks & Libraries: React, React Native, Nest.js, Node.js, Claude API, Tailwind CSS

Testing & Tools: Harbor, Cypress, Jest, Postman, LLM Evaluation Metrics

Databases: PostgreSQL, MongoDB

Cloud & DevOps: AWS, Docker, Git, CI/CD, Internationalization (i18n)

Languages: Turkish (*native*), English (*proficient*)
